

Marinex Analogue Telephone Exchange

The Marinex Analogue Telephone Exchange is designed for use on board ships for both internal and external communications. With a maximum capacity of 120 internal extensions the Marinex analogue exchange provides all normal telephone functions including priority intrusion, call transfer, call groups etc. Standard is a dual 24 volt d.c. and 110/230 volt a.c. power supply with automatic changeover between supplies. Marinex is available in both cabinet or rack mounted form.
